How the pros do it

Work top to bottom and dry before wet. Start the oven and shower first so products can soak while you work elsewhere. Test new products on a hidden spot, ventilate each room, and never mix bleach with other cleaners.

● Kitchen

10 tasks

- ☐ Clean inside the oven, trays and racks
- ☐ Soak and degrease rangehood filters
- ☐ Empty and wipe inside every cupboard
- ☐ Pull out the fridge and clean behind and under it
- ☐ Empty and clean inside the fridge and freezer
